

"Everything is possible with God"

**Learning Worksheet Nº2- Unit 1**

**English as a Foreign Language**

**Technology – 1º Medio A-B**

(Período 03 al 08 de abril, 2020)

NOMBRE : .....CURSO: .....

<b>OBJETIVO(S) DE APRENDIZAJE:</b>	<ul style="list-style-type: none"><li>• To identify key vocabulary from the unit.</li><li>• To read and comprehend the main idea of the text.</li><li>• To come up with conclusions about the message of the text.</li><li>• To recognize contextualized vocabulary.</li></ul>
<b>TEMA DEL TRABAJO:</b>	Technology
<b>ACTIVIDADES</b>	<ul style="list-style-type: none"><li>• Completar vocabulario con el uso de un diccionario.</li><li>• Responder preguntas de comprensión lectora, a través de preguntas de alternativas.</li><li>• Elegir vocabulario en base al contexto.</li></ul>

I. Read the text carefully. You can use any strategy from the tutorial video that you want.

“Everything is possible with God”

Good technology is creative. It **solves** real problems in people’s lives. Tomorrow’s Technology Today takes a look at how technology is helping kids with different challenges.

#### Case 1:

Devon Carrow- Sperduti from Buffalo, New York **suffers** from severe **allergies**. His allergies make it impossible to attend school. He spends most of his time in **isolation**. It is dangerous for him to go out where there are a lot of people, so he sends an interactive robot to school in his place. The robot’s name is VGo. VGo allows Devon to attend school from distance.

Devon does exactly the same schoolwork as any other child. The only difference is that Devon is not physically in the classroom. He sits at a desk at home and controls VGo from a computer connected to the internet.

VGo has **wheels** and moves around the school like any other student. It has a webcam, so Devon can see his teacher, the whiteboard, and the rest of his class. It also has a **screen** that shows Devon’s face. Using the screen and VGo’s audio speakers, Devon can **interact** with his teachers, ask and answer questions, and take part in discussions.

Outside class, VGo goes with Devon’s friends to the playground. Devon uses the robot to chat with his friends and hear all the playground chatter. Today, for example, Devon’s friends are going to watch a movie after school. Because of VGo, Devon **knows** what movie they are going to see. He knows that they are meeting outside the movie theater at seven o’clock and that Lee’s dad is driving them home after the movie.

Devon friends think VGo is great. They interact with the robot in the same way as they interact with real people. With VGo, Devon can spend free time at school with his friends without any danger to his **health**.

Scientists think that in the next 50 years, robots like VGo will help more and more people like Devon. They will **allow** people with physical problems to participate actively in all aspects of life outside home, including school and work.

"Everything is possible with God"

## II. Use a dictionary to complete the charts with the meaning of the words. (English to Spanish dictionary)

\* "V" y "n" son las abreviaciones para el significado que buscamos de estas palabras en el diccionario. Ej: Si buscamos "do" en el diccionario, los significados posibles son de verbo (v), auxiliar (aux), etc. Por eso en esta tabla salen especificados.

### Key Vocabulary

<u>NOUN (n)</u>	<u>MEANING</u>
ALLERGY	
ISOLATION	
ROBOT	
WHEEL	
SCREEN	
HEALTH	

<u>VERB (v)</u>	<u>MEANING</u>
SOLVE	
SUFFER	
INTERACT	
KNOW	
ALLOW	

## III. Choose the correct answer for the questions based on the text.

### 1. Why can't Devon go to school?

- a) Because he has a serious health problem.
- b) Because he lives in a small village.
- c) Because his parents don't have money.

"Everything is possible with God"

**2. How does Devon control VGo?**

- a) Via the computer.
- b) Via his teachers.
- c) Via radio.

**3. How do Devon's friends feel about VGo?**

- a) They don't like VGo.
- b) They treat the robot like a real person.
- c) They are nervous.

**IV. Choose the word to complete the sentences. Pay attention to context.**

Allergy- Wheels- Isolation- Health- Screen- Robot

1. With my brother, we have a huge TV \_\_\_\_\_ to watch the TV Series we like the most.
